A deposit is required for temporary use of a water meter. Upon completion of use, the meter is to be returned to Genoa Township. At such time the meter will be inspected to insure working order. A billing for the rental, water usage, and any damage will be calculated for the applicant at rates set forth in attached return form. The amount due will be deducted from your deposit and either a refund check or invoice for the balance will be mailed to you. The person renting the meter is responsible for the meter. You will also need to pump the hydrant down after every use each day freezing temperatures exist.

By signing this agreement, applicant has read and agrees to the above conditions, and will pay the applicable fees in the attached hydrant return form upon return.
